Report Introduction

The following serves as an introduction to the Goals, Scope and Contents of this report.

Goals:

Consistent with the City Council Goals of:

To Operate in a Businesslike Manner; To Practice Sound Fiscal Management; and To Increase Citizen Involvement.

This general-purpose “User Friendly” financial report is designed to meet the following objectives:

To provide concise information needed to gain a fair understanding of the City’s financial position, results of operations and cash flows;

To serve as the critical link between accounting systems and the users they are designed to serve; and

To serve as an early warning document to indicate unfavorable financial events.

Scope:

Initially, this report’s primary focus is on the fiscal events of the City’s General Fund. This focus will be expanded to other financial activities of the City funds as they occur and this report matures. Current year, monthly and fiscal-year-to-date (F-Y-T-D) information is provided on all charts and prior year data is provided in those areas where trend analysis is applicable. This report is not a substitute for the Comprehensive Annual Financial Report (CAFR).

Frequency:

This report will be published monthly.

Contents:

This report consists of various sections as detailed on the previous page. Each schedule within these sections contains descriptive information about the schedule. Some of these reports contain graphs to aid the reader. These graphs include a current year and two prior year trend lines and, where available, a five-year averages trend line. These trend lines provide a meaningful comparison of current year data.

Other Focus Features: Periodically, special reports will appear highlighting such fiscal areas as debt, cost allocation, long range fiscal plans, etc.

General Fund Cash Balance and Cash Available

Cash Balance

Similar to a personal bank account, the City's "Cash Balance" is the amount of money in the bank at a certain date.

May's ending cash balance reflects an increase of \$1.1 million as compared to April's ending balance.

Available Cash

When other funds temporarily "borrow" money from the General Fund, the remaining amount is called "Cash Available".

The City's General Fund "Cash Available" increased by \$8.1 million since April. Other funds have temporarily borrowed **\$1,123,006** from the General Fund to offset **negative cash** balances. This advance is primarily attributable to: Federal Law Enforcement Block Grant **\$748,741**, Sewer Capital Projects **\$285,596**, After School Program **\$48,018**, and Measure I 2010-2040 Reimb **\$35,459**.

Repayments to the General Fund will be made as funds become available.

Net Monthly Cash

The "Net Monthly Cash" (blue columns) is the difference between the monthly revenues and expenditures.

Occasionally, more expenditures will be paid than revenues received during the month. When this occurs, the column drops below the zero line and turns **white**. If this situation were continuous, a cash flow problem would develop.

See page 20 for a listing of all funds with negative cash.

July - Budgeted Transfers were recorded in the amount of \$14,151,370 from the General Fund to various funds to cover operating expenditures for the fiscal year.

Residential Development activity often acts as a barometer of local economic conditions. The **brown thick line** on the chart represents last year's building activity within the City. This year's activity is represented by the solid thick **blue line**.

In May, the City issued **72** SFD building permits.

The following are all located north of Foothill and east of Interstate 15. The West End Development, West Gate, Summit Heights, Landings, Rancho Fontana, Sierra Lakes, Walnut Village (7), Northgate, Citrus Heights North, Bellgrove II, Fontana Star, Morningside, Stratham Homes, Promenade (8), Providence Point and Sierra Crest.

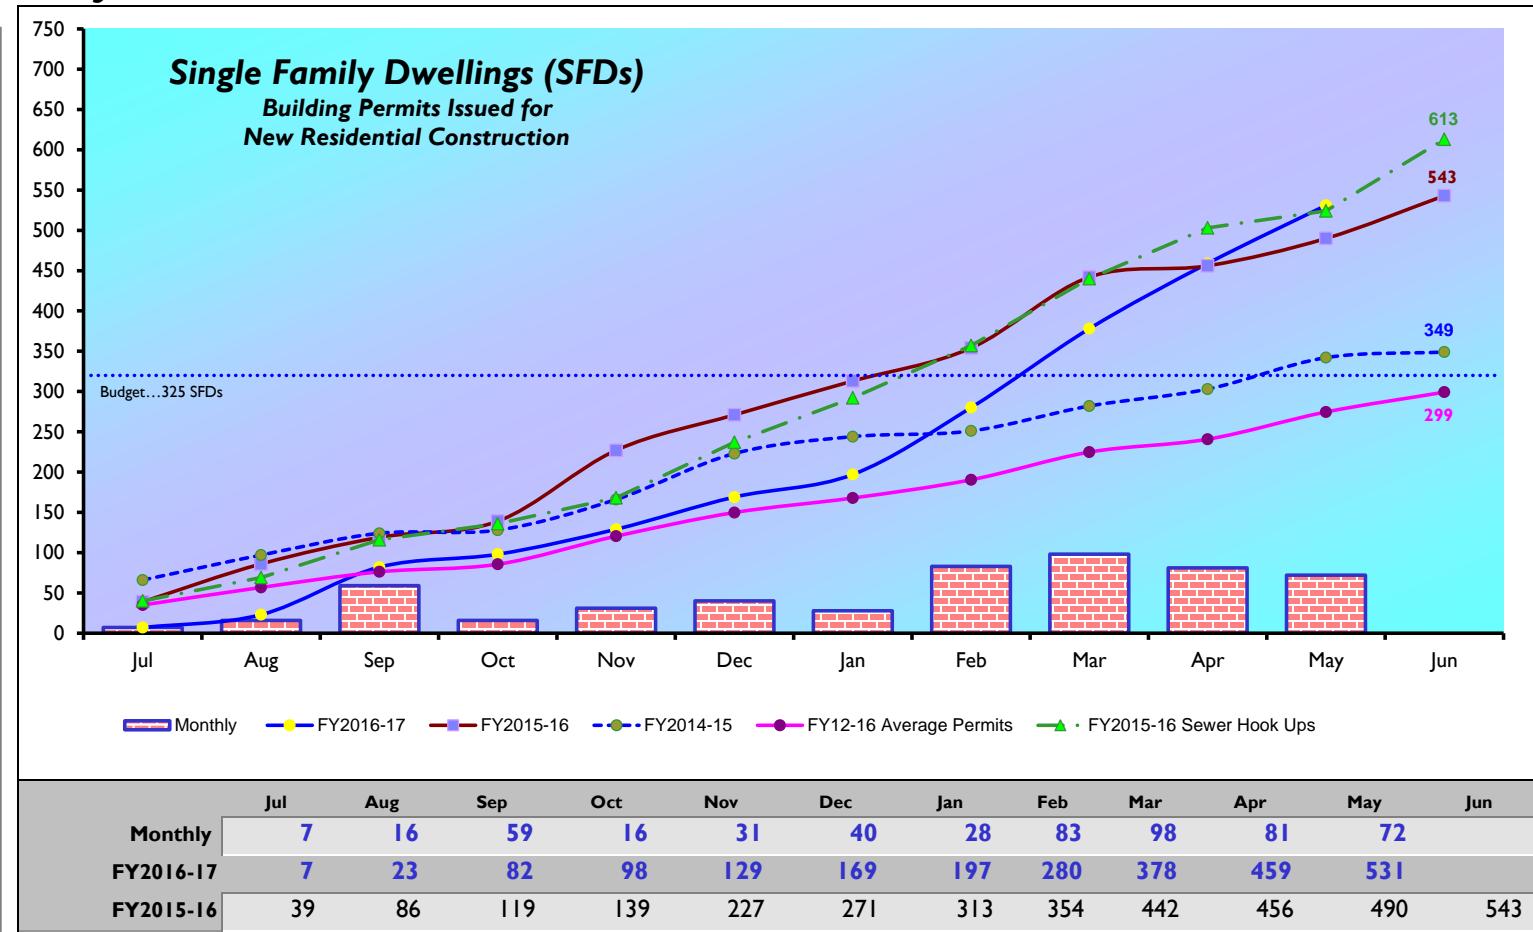

The Hunter's Ridge Development and Coyote Canyon Development are located north of Interstate 15.

The Country Club Estates Development and Sycamore Hills are located south of the Interstate 10 Fwy and east of Sierra Avenue.

The Southridge Development is located south of the Interstate 10 Fwy and west of Sierra Ave.

There were **57** permits issued in the City Wide & In-Fill Area, of which **(0)** were issued to independently owned property.

Certificates of Occupancy: New sewer hook-ups (FYTD 429) indicate that new construction is ready for occupancy. A large number of residential housing hook ups follow a large number of previously issued building permits.

Development Activity . . . Commercial & Industrial

Commercial and Industrial Development activity, similar to residential development, acts as a barometer of the local economic conditions. New activity in these development categories initially creates construction jobs and ultimately provides for a permanent employment base for the community.

Development activity over the past several years has been light as the industry has sought existing vacant buildings. As these existing structures become occupied and the vacancy rate diminishes, new development activity starts to increase.

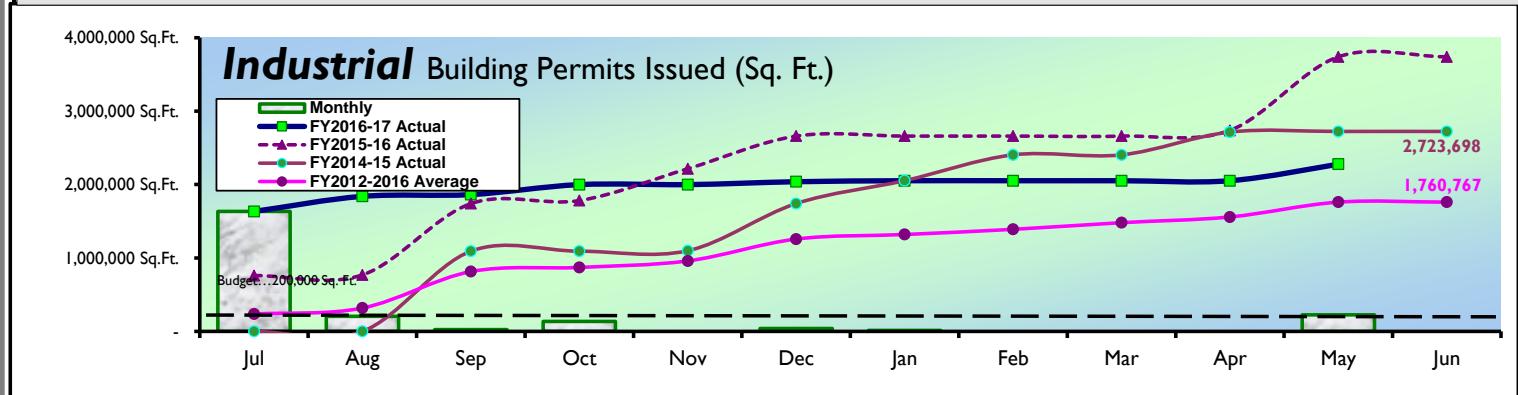

The City issued 1 commercial building permit in May.

The City issued 1 new industrial building permit in May.

General Fund Financial Summary

The General Fund is comprised of such general revenue sources as taxes, fines, licenses and fees. The fund provides for such services as Public Safety, Recreation, Legislative and City Administration. The use of money in this fund is generally not restricted to specific services and projects as is the case with other city funds.

Revenues - The green solid line on the adjacent chart, shows that the General Fund revenues are **84.2%** of the annual budget. Year-to-date total revenue is \$0.5 million higher than last year's revenue levels through May's month-end.

Expenditures - The red solid line represents the General Fund expenditures actually paid and do not include \$1.5 million of encumbrances (commitments made and agreed to be paid after obligations are fulfilled). The City's operating departments are on course with their expenditure plans. Additional details by department are listed on page 9.

Revenues

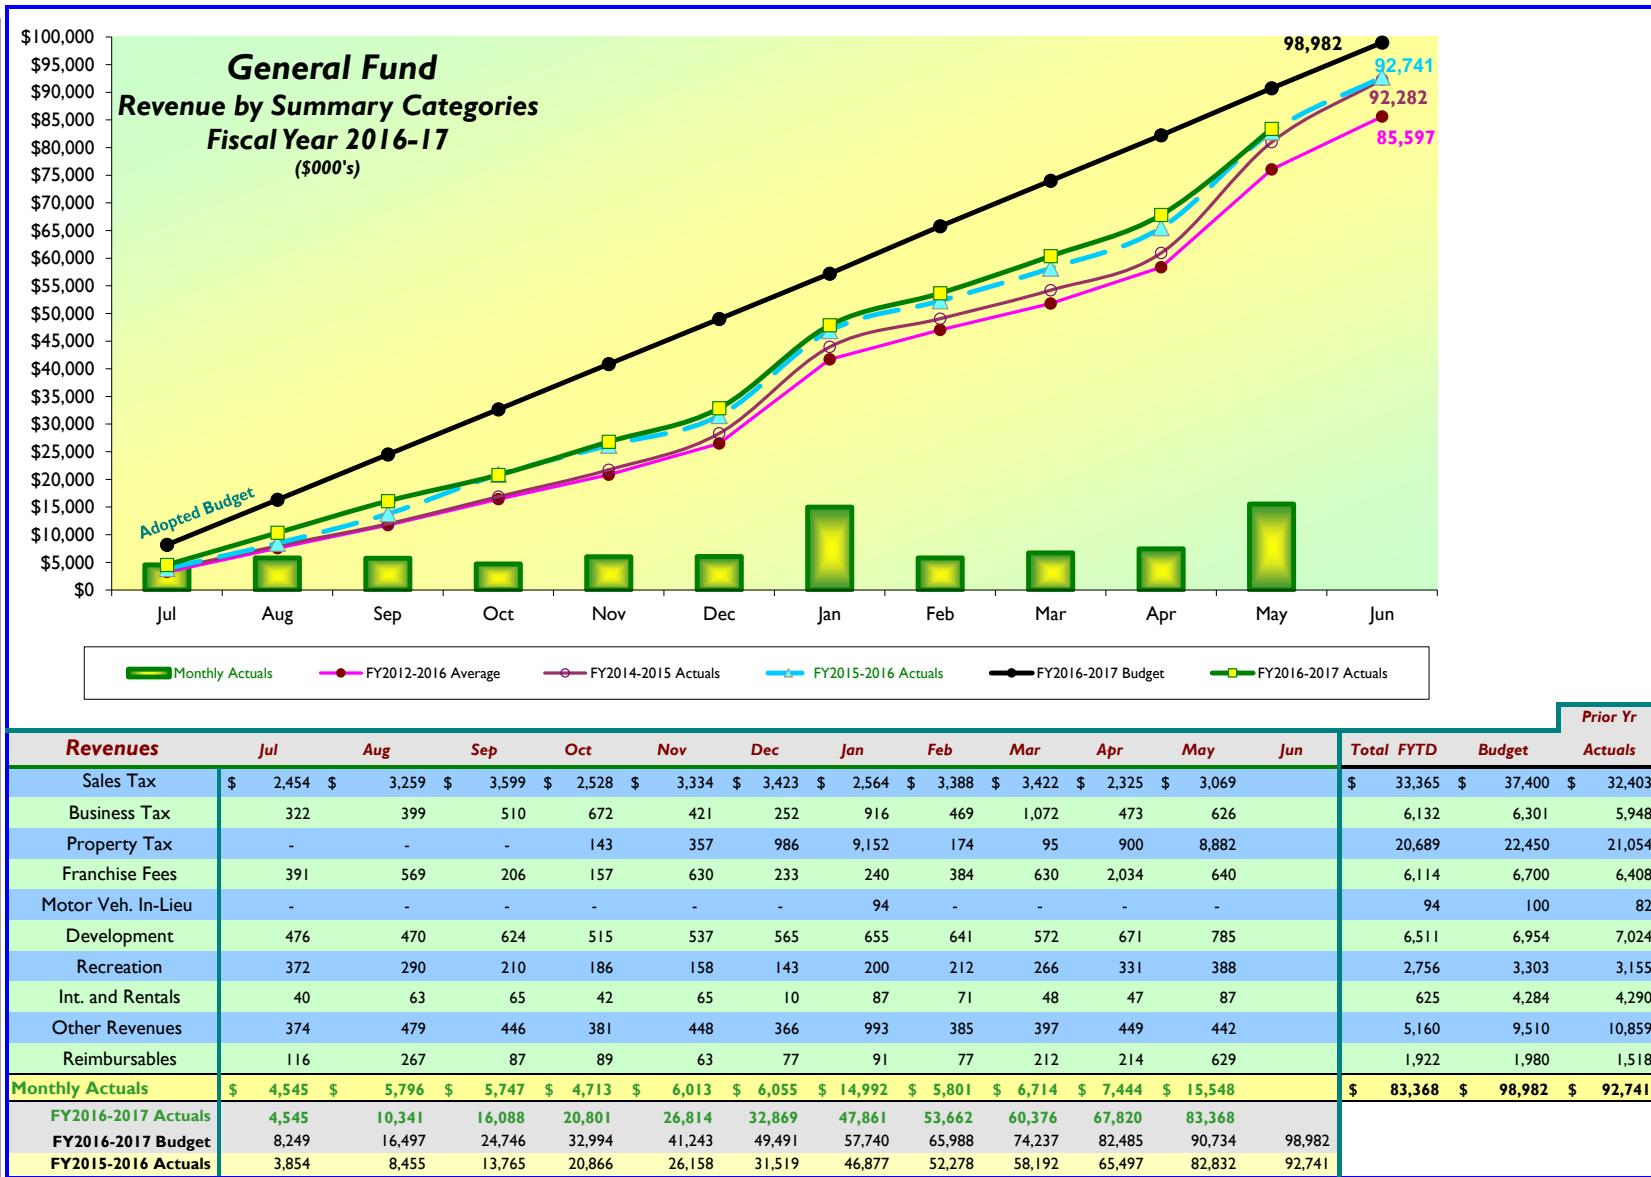

The General Fund's 140+ revenue accounts are categorized by like types of activity on the adjacent chart. In general, revenues can be further summarized into Taxes, Fees, State Subventions and other revenues.

Over one-half of the City's General Fund revenues are derived from taxes. The top two budgeted tax revenue sources are Sales Tax (38% - \$37.4 million), and Property Tax (23% - \$22.5 million).

Through May 2017, the General Fund's actual revenues received are **84.2%** of the annual budget amount.

Development related revenues have achieved **93.6%** of their annual revenue budget. During May, construction permits were issued for **72** additional homes.

MVLF revenues are being significantly affected by the economic downturn. State charges have grown far in excess of VLF collections. While state charges increased at about 10% per year, actual revenue collections have been declining. This decline, together with the State charges has caused a cash flow issue in recent months in which, following state charges, there were zero funds left to allocate to cities. All legislation efforts to restore the MVLF for the annexation areas within the City have failed.

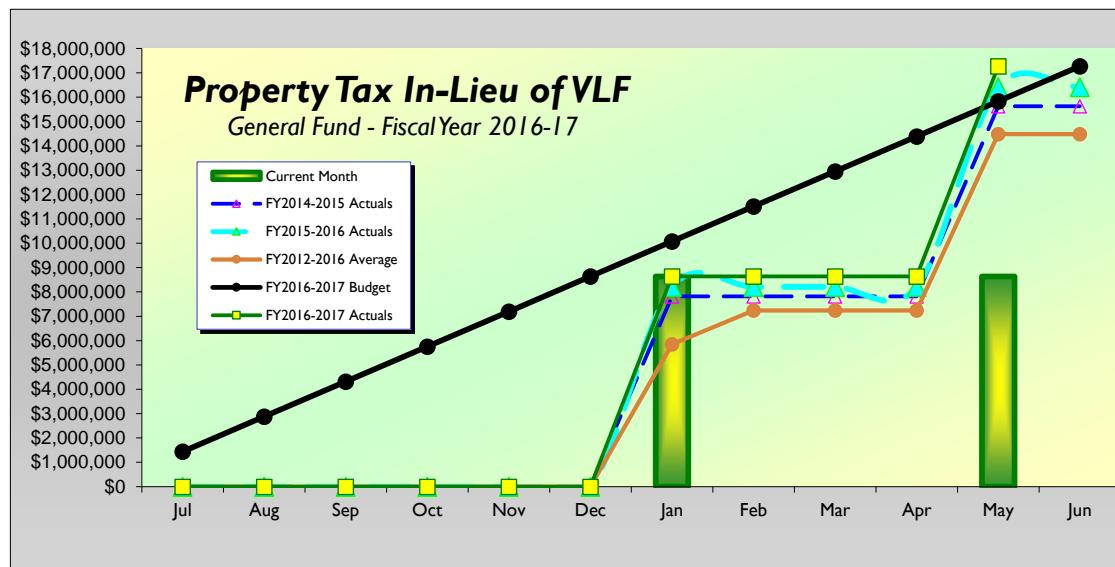

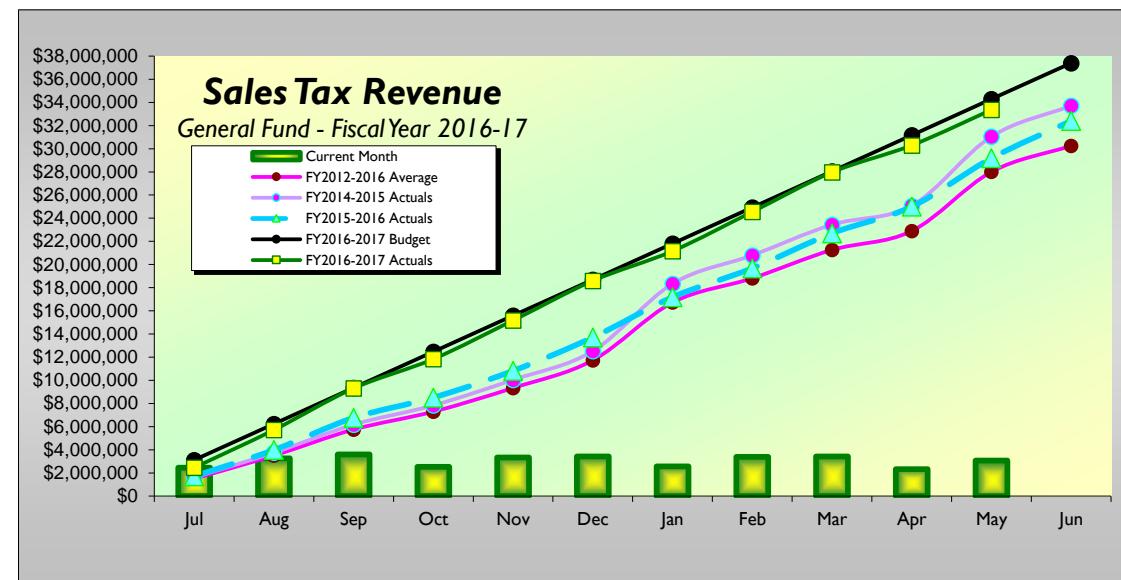

General Fund Revenue . . . Highlights

Two of the most significant revenue sources for the General Fund are Sales Tax and Property Tax In-Lieu of VLF. These two sources account for 55.4% of the estimated General Fund revenues.

Sales Tax: Sales Tax revenues, fiscal year to date, are **\$33,365,131** or **89.2%** of the annual budget of \$37,400,000.

Property Tax in-Lieu of VLF: Property Tax In-Lieu of VLF revenues to date are **\$17,270,467** or **100%** of the total annual budget of \$17,270,000. This revenue is received one-half in January & one-half in May.

The Budget Act of 2004 contains a "swap" of city and county Vehicle License fee revenues for property tax revenues effective for the FY04-05 budget year.

This act, also known as the State's "Triple Flip" includes a permanent reduction of the VLF rate from 2% to 0.65%. The VLF backfill is eliminated and replaced with a like amount of property taxes, dollar-for-dollar payable in lump-sum payments twice a year in January and May.

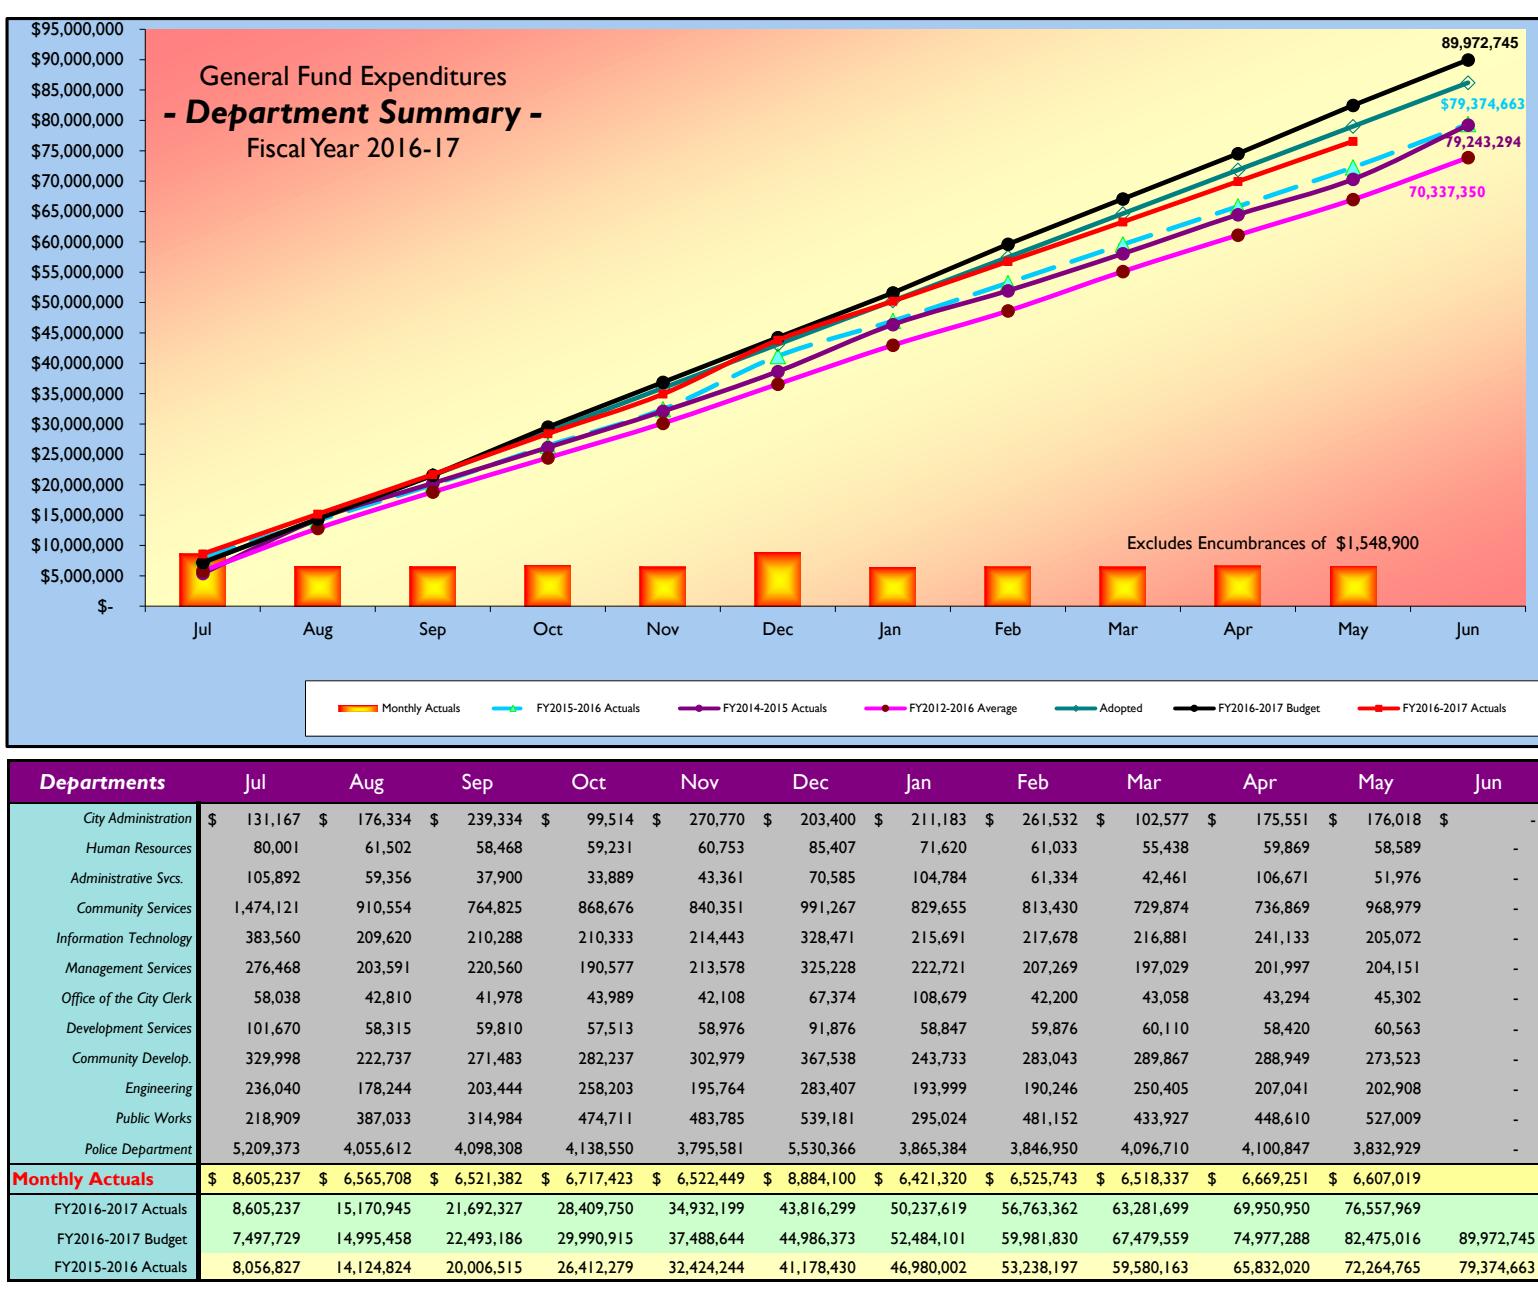

Subsequent to the FY04-05 and FY05-06 base years, each city's "property taxes in lieu of VLF" will increase in proportion to the growth in gross assessed valuation in the city.

Remaining VLF revenue is deposited in the Motor Vehicle License Fee Account. After the State administrative charges, there are zero funds left to allocate to cities.

General Fund Expenditure Summary by Department

At the end of May 2017, the Departments' expenditures are running below the estimated fiscal year to date budget as illustrated by the solid red line on the chart. These expenses do not include \$1.5 million of encumbrances.

The Departments are on course with their expenditure plans. To date, the Departments have spent 85.1% of their annual budgets compared to a target of 91.67%.

To evaluate the performance of the City's portfolio, the Statement of Investment Policy has established the two-year treasury note as the benchmark for comparison purposes. It is expected that yields on City investments will regularly meet or exceed the benchmark; however, a variance of .50% (50 basis points) plus or minus is considered reasonable by the Investment Review Committee for evaluation purposes.

The City rate currently exceeds the Benchmark rate by 12 basis points due to historically low treasury rates.

INVESTMENT PROGRAM:

The purpose of the investment program is to provide procedures which:

- 1) Adhere to the Statement of Investment Policy.
- 2) Prioritize safety and liquidity.
- 3) Determine risk and optimize return.
- 4) Provide for a system of due diligence in making investment decisions.

A "Model" investment portfolio has been developed to provide the strategic framework for managing and reporting on the investment portfolio. This model provides a system of due diligence and directs the tactical theme for how and why securities are bought and sold.

Risk Management is an important part of local government management with significant impact on public financial management. Risk management is interdisciplinary, involving finance, environmental management, public works, safety, transportation, parks, recreation, health, education, personnel, purchasing, and law.

Risk management results in more effective use of funds that might otherwise be diverted to purchasing unnecessary or expensive insurance, replacing damaged property, or paying liability or workers' comp claims.

Risk management identifies exposures that can be covered by means other than insurance—or that can be avoided completely.

Risk management can lower expenditures by reducing the overall "costs of risk."

Economic Development in Fontana

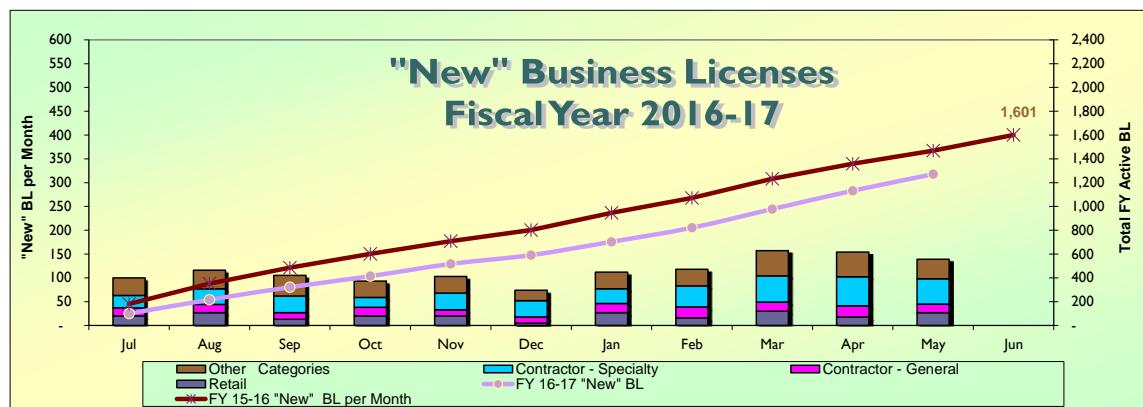

Factors Indicating the City's Economic Growth:

Business Licenses: "New" businesses are those that first applied for a business license in that fiscal year. There were 9,034 active businesses in FY 2014-15. As of June 30, 2016 there were 9,082 active business licenses in the City. Businesses are recorded as renewals in the subsequent year.

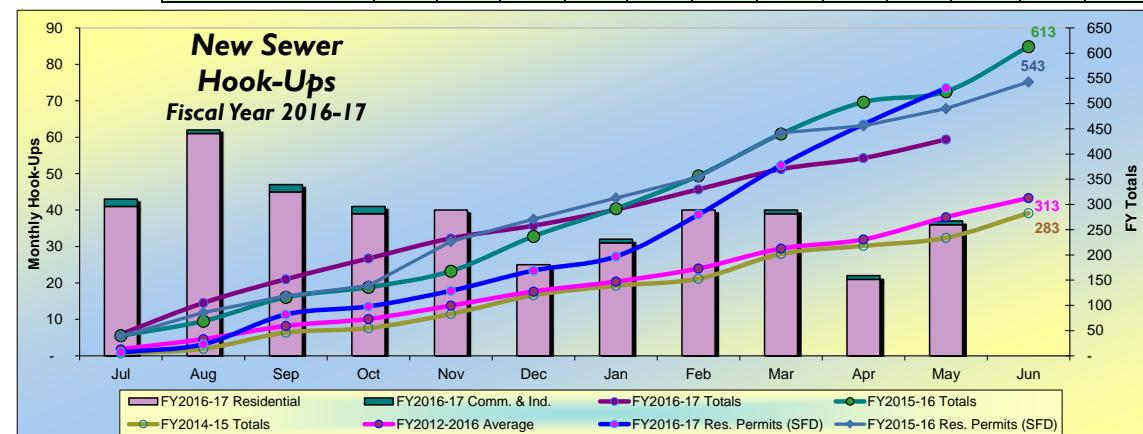

During the month of May 2017, 139 new business licenses were issued, primarily to Contractor-Specialty (53), Contractor-General (18) & Retail (27). In addition to these 139, the City received 43 other business license applications that are pending approval. As of May 31, 2017, there are 8,937 active business licenses representing a decrease of 145 since June 30, 2016.

Business License accounts continue to be audited on a continuous basis and any accounts on delinquent status are removed from the Active status.

New Sewer Hook-Ups: New sewer hook-ups indicate that new construction is ready for occupancy. A large number of residential housing hook-ups follow a large number of previously issued building permits. In May 2017, there were 36 new residential hook-ups and 1 commercial/industrial hook-up.

Capital Reinvestment Fund #601

Fund Description: The Capital Reinvestment Fund was established in May 1998 to separate General Fund allocations for capital projects from operating funds. Its mission is to implement the City Council goal to invest 10% of the annual General Fund appropriations into discretionary infrastructure projects as defined in the Seven-Year Capital Improvement Program. **Revenue Source:** The Capital Reinvestment Fund's main source of revenue is the General Fund. In the past 14 fiscal years, Capital Projects actual expenditures have totaled \$190,711,493 through June 30, 2016

Development Services Organization Customer Service Quality Assurance

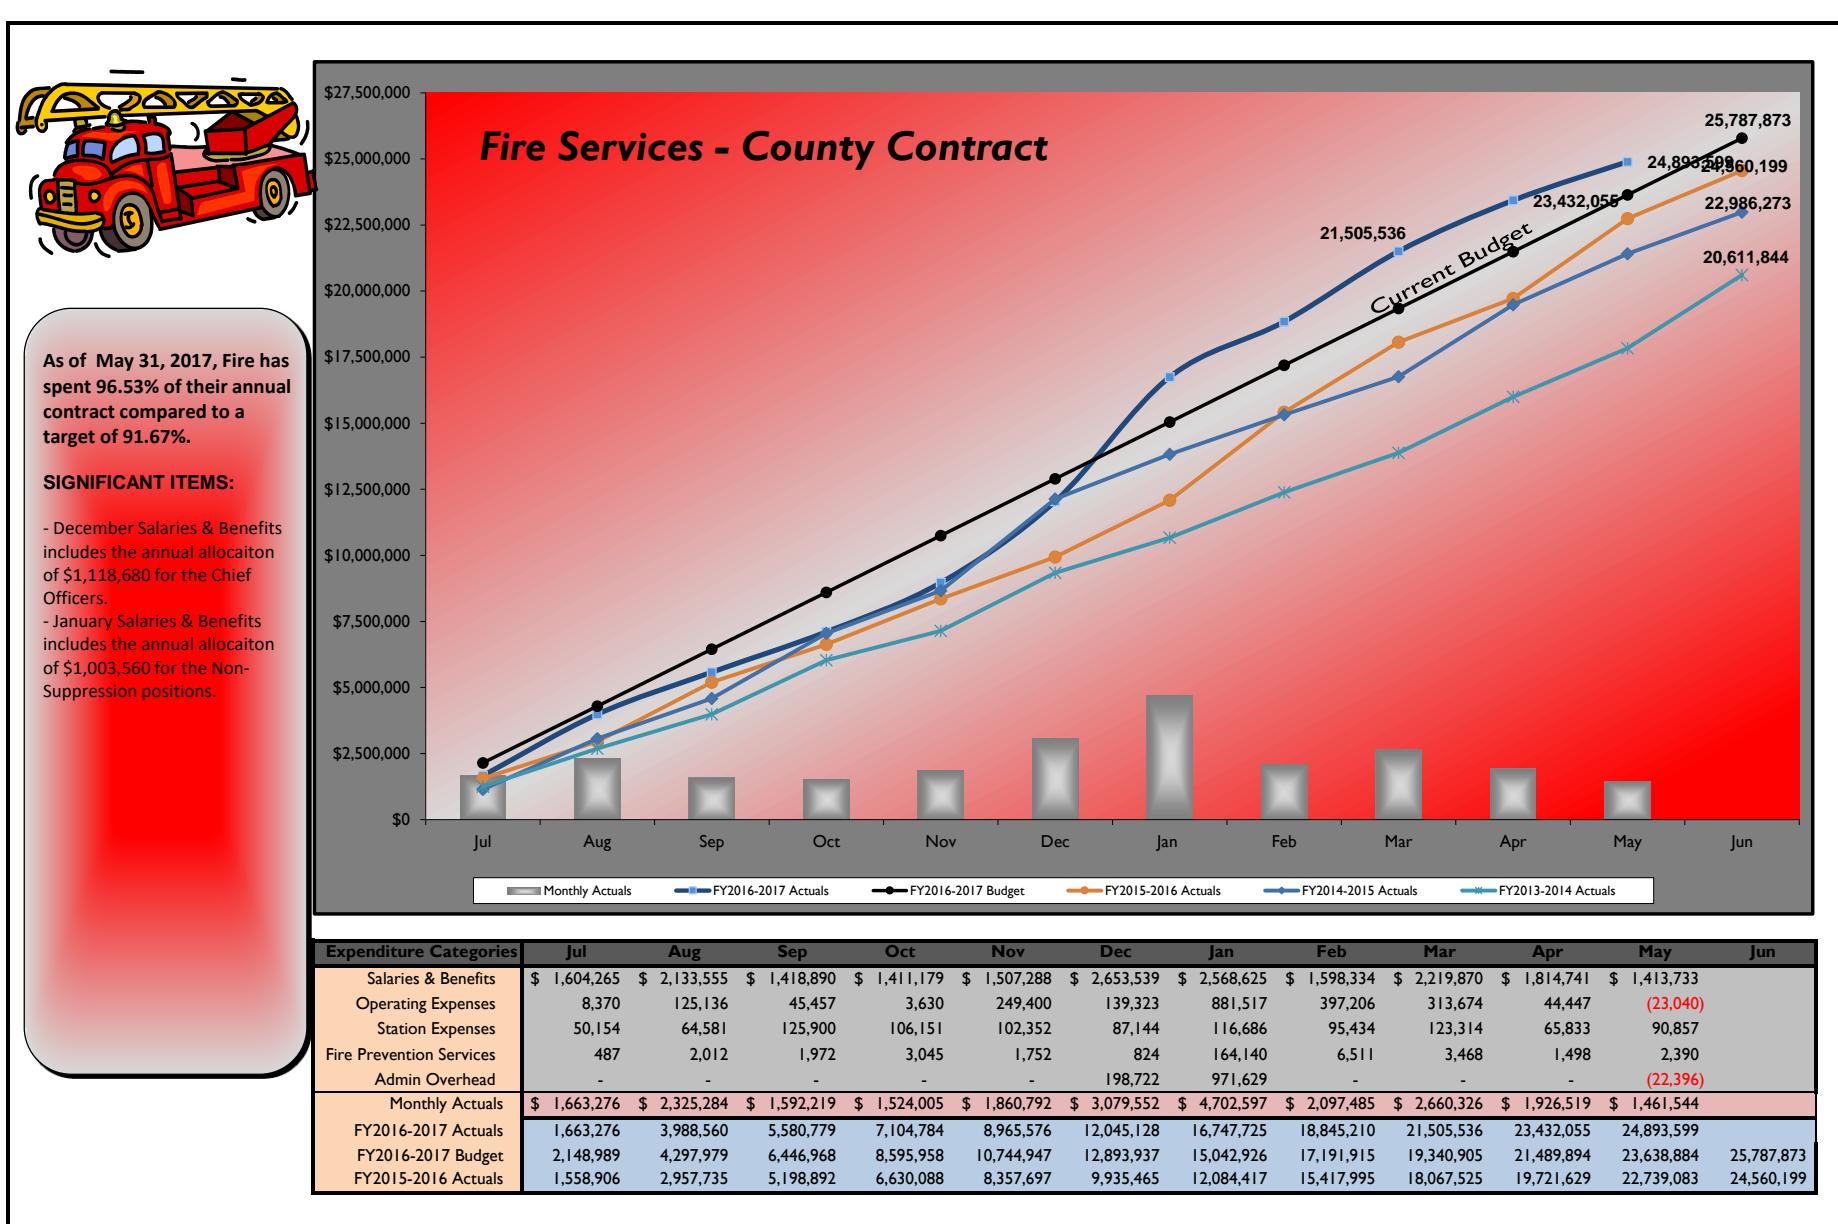

Each month the Development Services Organization sends 150 surveys to a random sampling of customers. There were 15 survey cards received in May.

The surveys request a rating of the level of customer assistance that was received. A rating of 1 is below expectations. A rating of 5 is above expectations.

The survey also invites the customer to comment on the service that was received. The following charts summarize the responses received.

The Development Services front counter staff assisted 1,987 customers in April which equates to 105 customers per day.
