General Fund Cash Balance and Cash Available

Cash Balance

Similar to a personal bank account, the City's "Cash Balance" is the amount of money in the bank at a certain date.

July's ending cash balance reflects a decrease of \$12.7 million as compared to June's ending balance.

Available Cash

When other funds temporarily "borrow" money from the General Fund, the remaining amount is called "Cash Available".

The City's General Fund "Cash Available" decreased by \$12.3 million since June. Other funds have temporarily borrowed **\$808,322** from the General Fund to offset **negative cash** balances. This advance is primarily attributable to: Federal Law Enforcement Block Grant **\$18,439**, After School Program **\$533,796**, Sewer Capital Projects **\$205,211**, and Measure I 2010-2040 Reimb **\$50,568**.

Repayments to the General Fund will be made as funds become available.

Net Monthly Cash

The "Net Monthly Cash" (blue columns) is the difference between the monthly revenues and expenditures.

Occasionally, more expenditures will be paid than revenues received during the month. When this occurs, the column drops below the zero line and turns **white**. If this situation were continuous, a cash flow problem would develop.

See page 20 for a listing of all funds with negative cash.

Residential Development activity often acts as a barometer of local economic conditions. The **brown thick line** on the chart represents last year's building activity within the City. This year's activity is represented by the solid thick **blue line**.

In July, the City issued **40** SFD building permits.

The following are all located north of Foothill and east of Interstate 15. The West End Development, West Gate, Summit Heights, Landings , Rancho Fontana, Sierra Lakes, Walnut Village (7), Northgate, Citrus Heights North, Bellgrove II , Fontana Star, Morningside, Stratham Homes, Promenade (10), Providence Point and Sierra Crest.

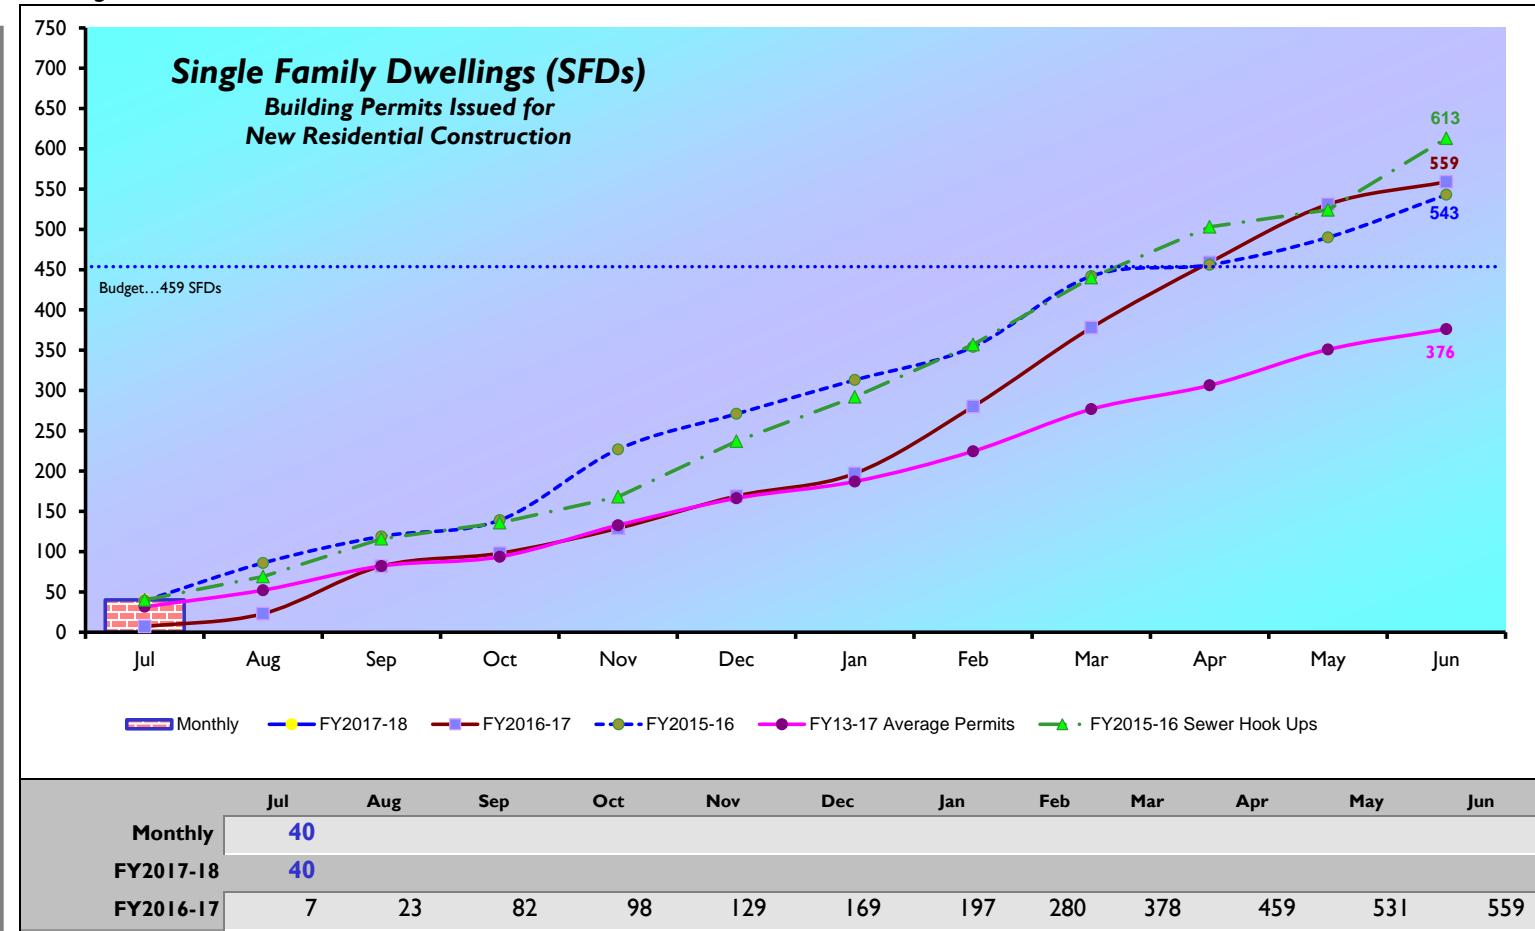

The Hunter's Ridge Development and Coyote Canyon Development are located north of Interstate 15.

The Country Club Estates Development and Sycamore Hills are located south of the Interstate 10 Fwy and east of Sierra Avenue.

The Southridge Development is located south of the Interstate 10 Fwy and west of Sierra Ave.

There were **23** permits issued in the City Wide & In-Fill Area, of which **(2)** were issued to independently owned property.

Certificates of Occupancy: New sewer hook-ups (**FYTD 85**) indicate that new construction is ready for occupancy. A large number of residential housing hook ups follow a large number of previously issued building permits.

Development Activity . . . Commercial & Industrial

Commercial and Industrial Development activity, similar to residential development, acts as a barometer of the local economic conditions. New activity in these development categories initially creates construction jobs and ultimately provides for a permanent employment base for the community.

Development activity over the past several years has been light as the industry has sought existing vacant buildings. As these existing structures become occupied and the vacancy rate diminishes, new development activity starts to increase.

The City issued 0 commercial building permit in July.

The City issued 0 new industrial building permit in July.

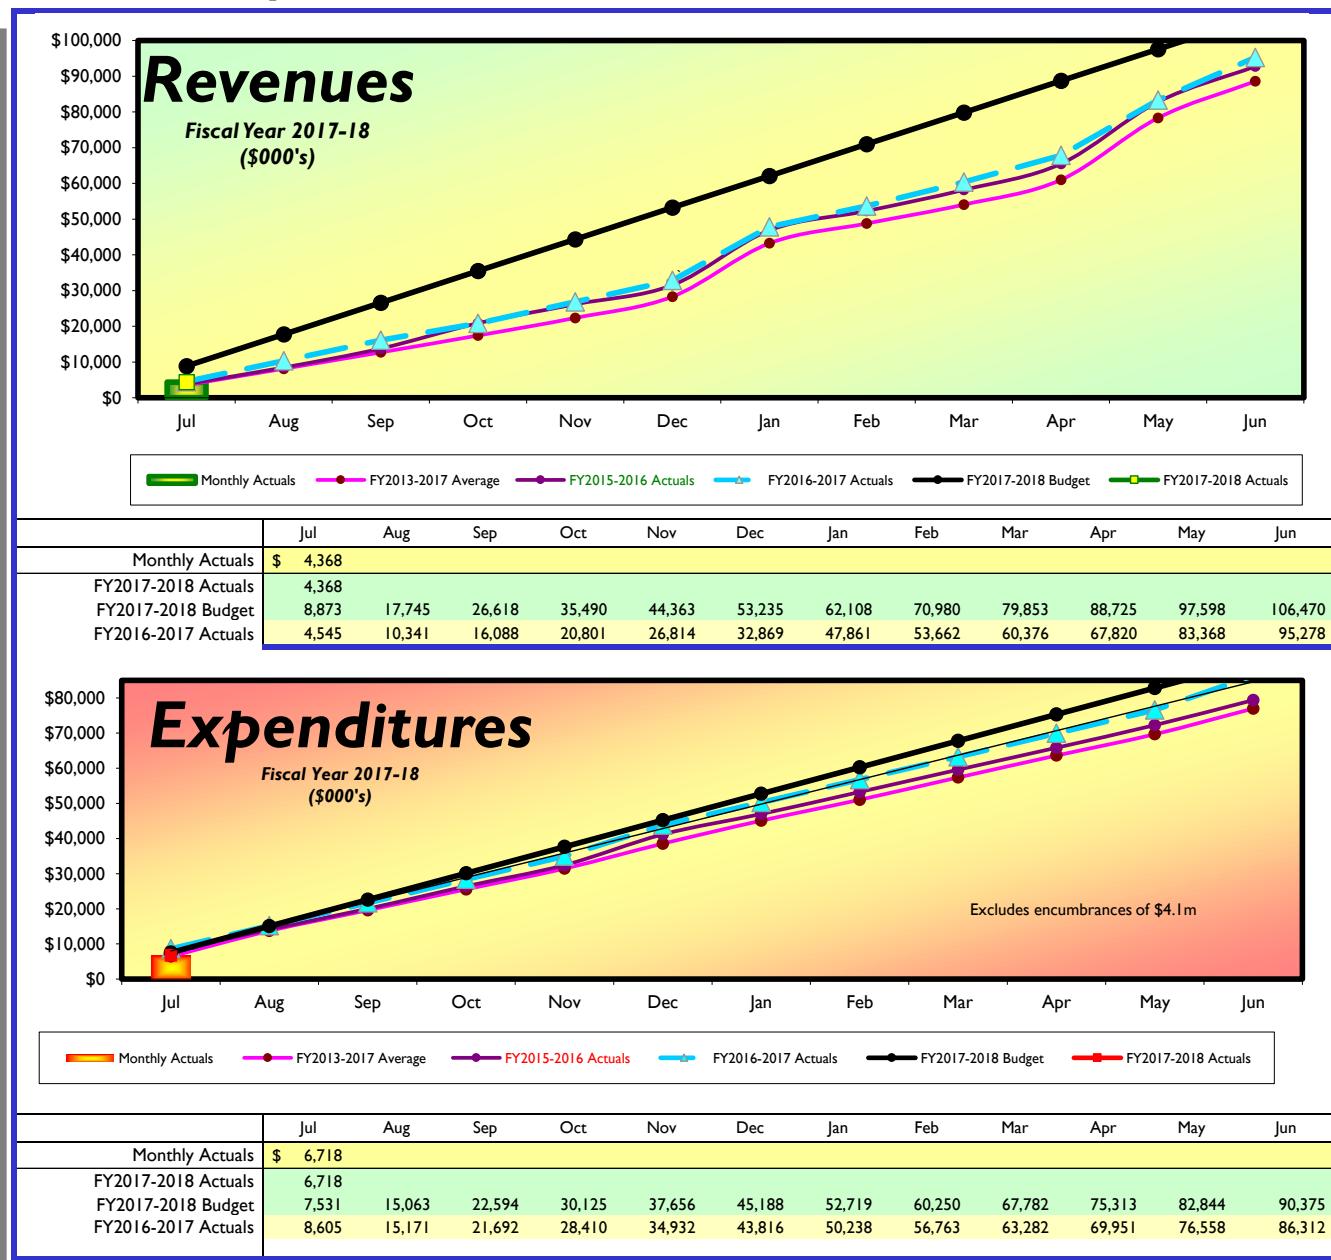

General Fund Financial Summary

The General Fund is comprised of such general revenue sources as taxes, fines, licenses and fees. The fund provides for such services as Public Safety, Recreation, Legislative and City Administration. The use of money in this fund is generally not restricted to specific services and projects as is the case with other city funds.

Revenues - The green solid line on the adjacent chart, shows that the General Fund revenues are **4.1%** of the annual budget. Year-to-date total revenue is \$0.2 million lower than last year's revenue levels through July's month-end.

Expenditures - The red solid line represents the General Fund expenditures actually paid and do not include \$4.1 million of encumbrances (commitments made and agreed to be paid after obligations are fulfilled). The City's operating departments are on course with their expenditure plans. Additional details by department are listed on page 9.

Revenues

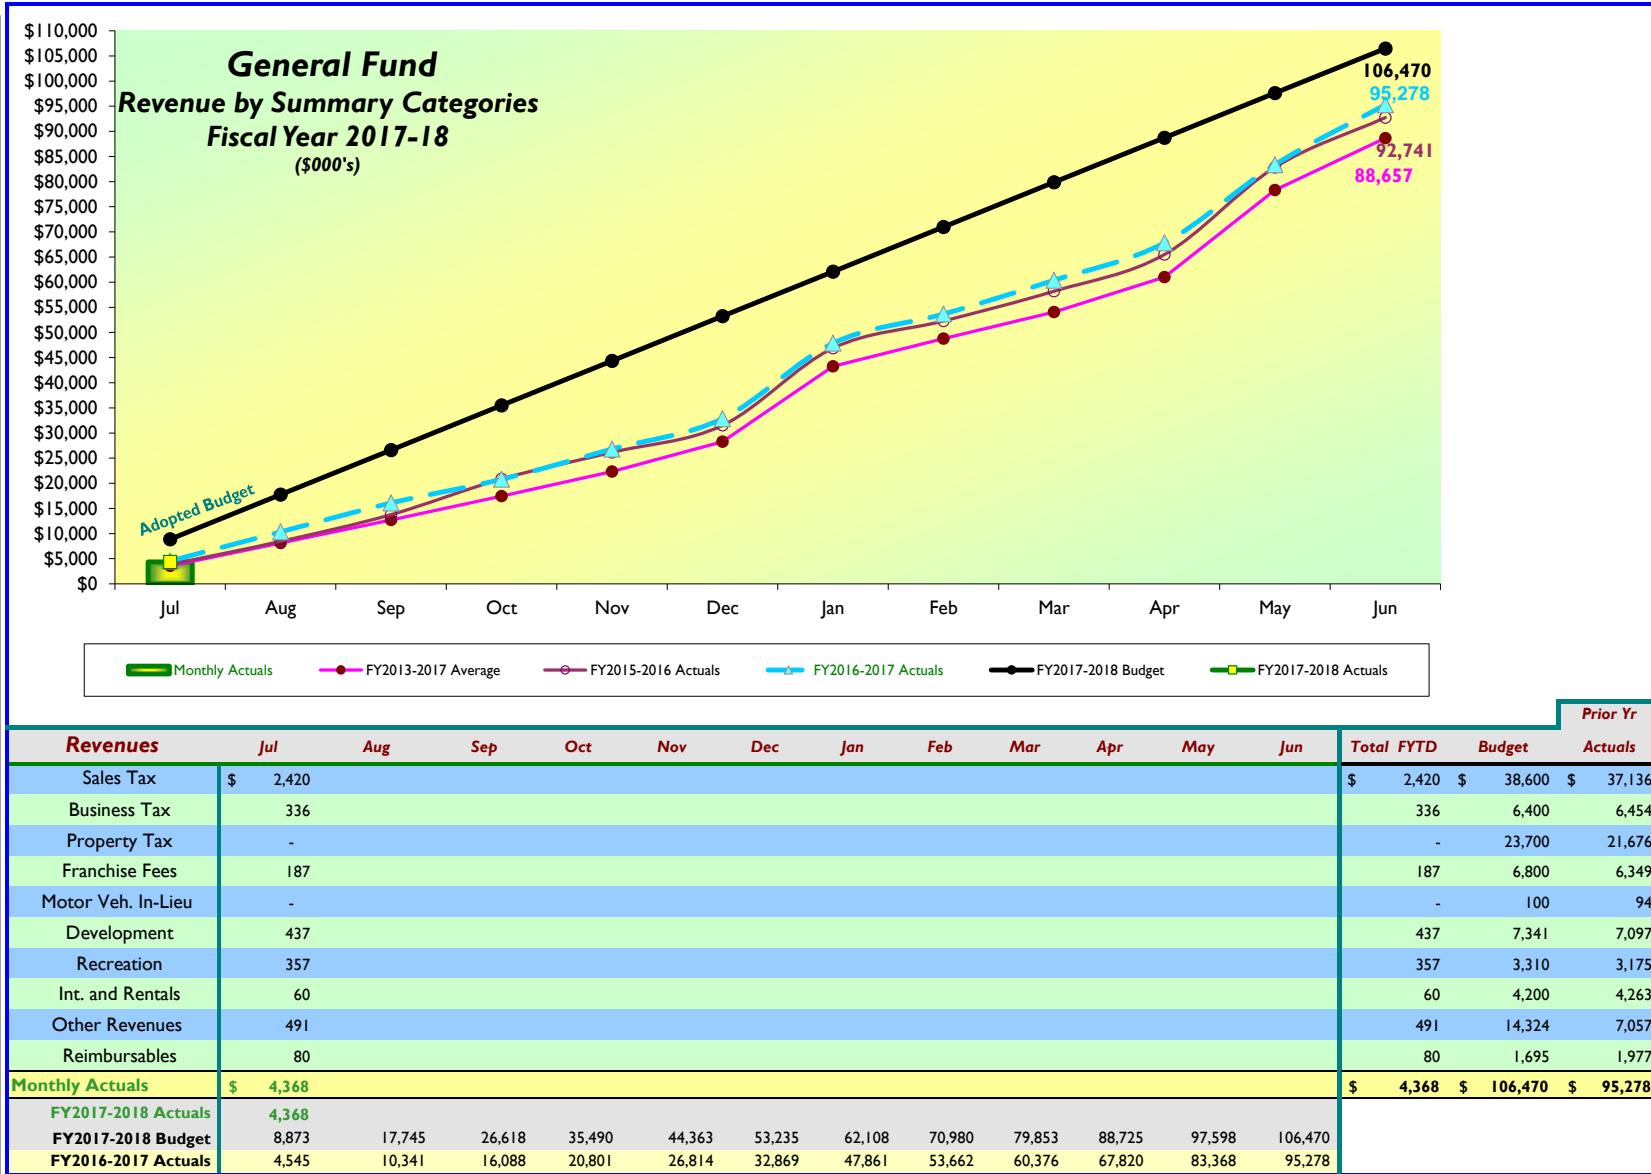

The General Fund's 140+ revenue accounts are categorized by like types of activity on the adjacent chart. In general, revenues can be further summarized into Taxes, Fees, State Subventions and other revenues.

Over one-half of the City's General Fund revenues are derived from taxes. The top two budgeted tax revenue sources are Sales Tax (36.3% - \$38.6 million), and Property Tax (22.2% - \$23.7 million).

Through July 2017, the General Fund's actual revenues received are **4.1%** of the annual budget amount.

Development related revenues have achieved **6.0%** of their annual revenue budget. During July, construction permits were issued for **40** additional homes.

MVLF revenues are being significantly affected by the economic downturn. State charges have grown far in excess of VLF collections. While state charges increased at about 10% per year, actual revenue collections have been declining. This decline, together with the State charges has caused a cash flow issue in recent months in which, following state charges, there were zero funds left to allocate to cities. All legislation efforts to restore the MVLF for the annexation areas within the City have failed.

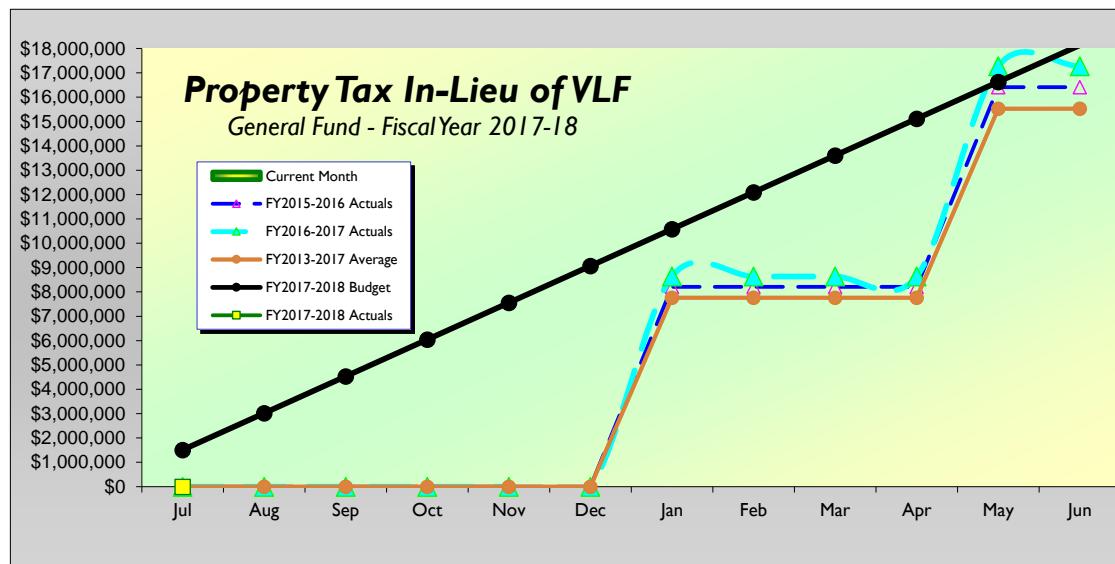

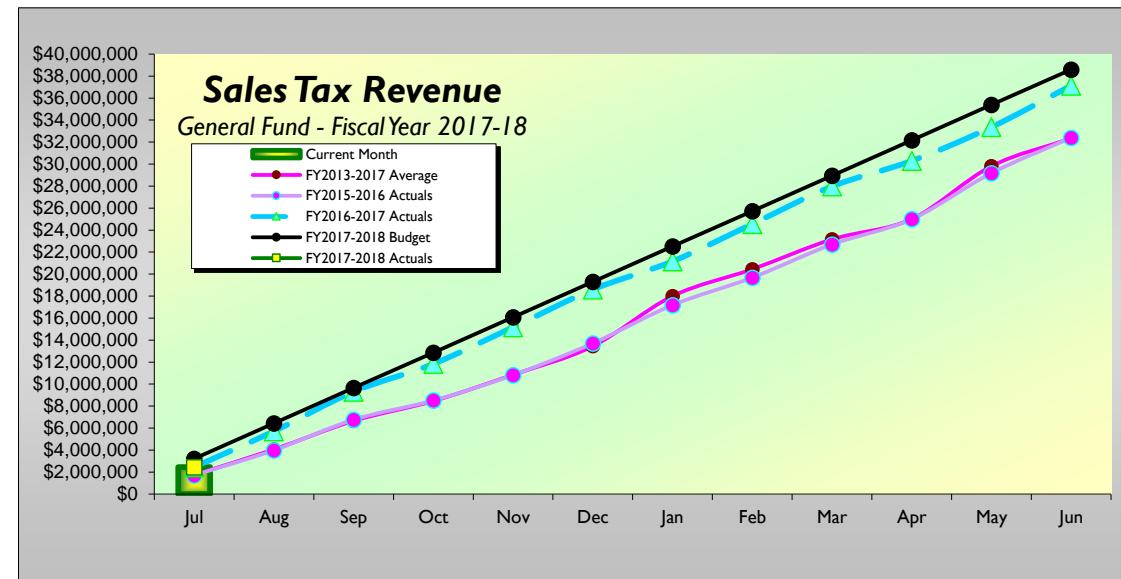

General Fund Revenue . . . Highlights

Two of the most significant revenue sources for the General Fund are Sales Tax and Property Tax In-Lieu of VLF. These two sources account for 53.2% of the estimated General Fund revenues.

Sales Tax: Sales Tax revenues, fiscal year to date, are **\$2,419,628** or **6.27%** of the annual budget of \$38,600,000.

Property Tax in-Lieu of VLF: Property Tax In-Lieu of VLF revenues to date are **\$0** or **0%** of the total annual budget of \$18,134,000. This revenue is received one-half in January & one-half in May.

The Budget Act of 2004 contains a "swap" of city and county Vehicle License fee revenues for property tax revenues effective for the FY04-05 budget year.

This act, also known as the State's "Triple Flip" includes a permanent reduction of the VLF rate from 2% to 0.65%. The VLF backfill is eliminated and replaced with a like amount of property taxes, dollar-for-dollar payable in lump-sum payments twice a year in January and May.

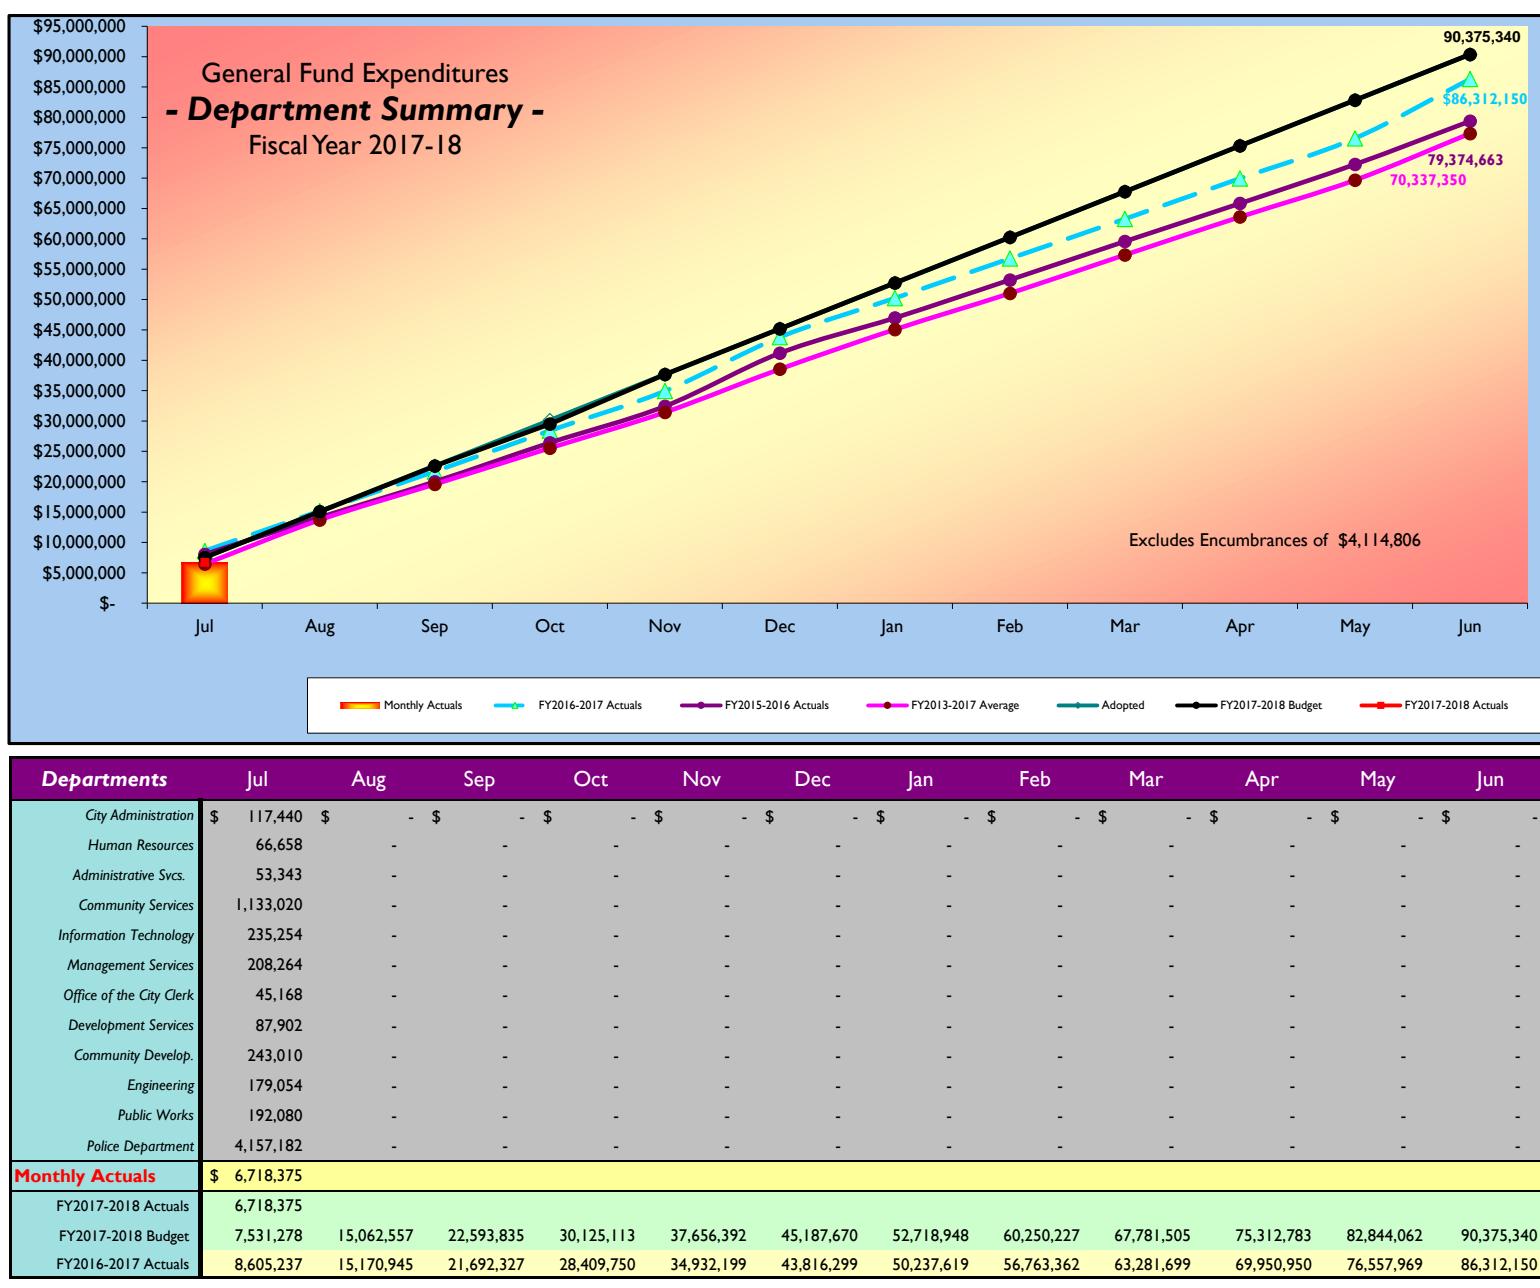

Subsequent to the FY04-05 and FY05-06 base years, each city's "property taxes in lieu of VLF" will increase in proportion to the growth in gross assessed valuation in the city.

Remaining VLF revenue is deposited in the Motor Vehicle License Fee Account. After the State administrative charges, there are zero funds left to allocate to cities.

General Fund Expenditure Summary by Department

At the end of July 2017, the Departments' expenditures are running below the estimated fiscal year to date budget as illustrated by the solid red line on the chart. These expenses do not include \$4.1 million of encumbrances.

The Departments are on course with their expenditure plans. To date, the Departments have spent **7.4%** of their annual budgets compared to a target of 8.33%.

Risk Management is an important part of local government management with significant impact on public financial management. Risk management is interdisciplinary, involving finance, environmental management, public works, safety, transportation, parks, recreation, health, education, personnel, purchasing, and law.

Risk management results in more effective use of funds that might otherwise be diverted to purchasing unnecessary or expensive insurance, replacing damaged property, or paying liability or workers' comp claims.

Risk management identifies exposures that can be covered by means other than insurance—or that can be avoided completely.

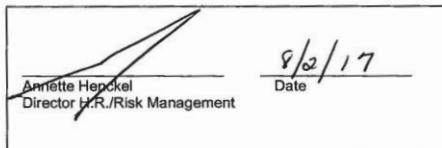

Risk management can lower expenditures by reducing the overall "costs of risk."
