Per the Investment Guidelines in the Investment Management Agreement, which are also in line with the CA Government Code, Agency MBS and ABS have a maximum maturity of 5 years, which is measured on a weighted average life (WAL) basis. This measure is a common industry practice to measure the time length of securitized loans and is more accurate than maturity measure. The main reason for using WAL for mortgages is because due to changes in the interest rates, mortgages (which are amortizing loans) are rarely paid on schedules and are more likely to be prepaid before mortgage maturity. Finally, it is worth noting that City of Fontana's portfolio is an actively managed portfolio, so bonds aren't usually held to maturity.

This summary was assembled by Shuster Advisory Group, LLC ("Shuster") by request from the City of Fontana. The information shown is taken from Schwab custodial data and is believed to be accurate. Any discrepancy is purely unintentional and is not guaranteed by Shuster.

Some securities did not have yields provided by Schwab. Yields in these cases were sourced from Blackrock. Data source is available upon request.

Glossary

Coupon Rate: This is the stated coupon rate for the security. For variable rate securities this rate may change. Data provided by Orion.

Yield to Maturity: This is the actual average annual return on a note if held to maturity. Data provided by Orion.

Maturity Date: This is the stated maturity date of the security. Certain securities like mortgage pools, collateralized mortgage obligations, and asset backed securities can have the option to be paid back prior to maturity.

CMO & Asset Backed Securities: This is a type of financial security which is collateralized by an underlying pool of assets.

Ending Par Value/Shares: The original par value of the security.

Cost Basis: Original cost of the security.

Adjusted Cost Basis: The original cost basis adjusted for amortization.
