## *Significant Economic Trends*

### **Nationally:**

- Most experts agree that the future trajectory of the U.S. economy has become more uncertain. They seem to agree on the fact that the economy is not in recession right now, but the odds of a recession in 2023 continue to climb. The most reliable model now shows a 50% chance of a downturn within the next year, still leaving a 50% chance that the U.S. will avoid recession, which is encouraging. Economists expect GDP to expand by 1.7% in the third quarter of this year and a 2% in the fourth quarter.
- The U.S. economy added 315,000 jobs in August, extending a hiring streak that has led to a full employment recovery. The unemployment rate is near historic lows and wages are rising quickly. Economists expect the unemployment rate to average 3.7% at the end of 2022, slightly higher than the 3.5% observed earlier in the year.

### **The State of California:**

- Despite the long stretch of superior job growth, California has thus far recreated just over 97% of the 2.76 million jobs that were lost in the spring of 2020. While sizeable progress has been made to reach the pre-pandemic level of total nonfarm jobs, the state trails the U.S. which exceeded its previous peak of February 2020 in July. The state unemployment rate is projected to average 4.4% in 2022 and rise marginally to 4.6% next year on moderating job growth.

### **City of Fontana**

- Fiscal Year 2021/22 ended with 832 single family dwelling permits being issued. For the first quarter of 2022/23, 142 residential permits have been issued compared to 151 for the same period last year.
- Second quarter 2022 sales were 6% higher than the same quarter one year ago. Strong growth continues and sales tax receipts are actually higher than pre-pandemic levels.
- The Local Agency Investment Fund is currently paying 1.63% (daily rate) on City investments, up from 0.2% for the same time last year. The 2-year treasury benchmark rate is 4.22%, up from 0.28% last year.

NOTE: Property Tax in-lieu of VLF collections are lagging due to the State's distribution which provides for lump-sum payments in January and May. Interest revenue is received starting in October and is followed by a year-end accrual for a full twelve months of interest. A large number of Business Licenses are renewable in December. A large share of Franchise revenues is received annually in the month of April. **When adjusted for these anomalies, the percent of recommended budget received is 29.95%.**
