

ROUGH GRADE CERTIFICATION

The City of Fontana requires a licensed Professional Engineer / Licensed Land Surveyor to submit a signed and stamped rough grading certification prior to the issuance of a building permit.

Project Description: _____ **Tract No.** _____

Project Address: _____ **Permit No.** _____

I hereby certify the rough grading for the above referenced project in accordance with my responsibilities under California Building Code Chapter 33, Appendix J, and the City of Fontana Municipal Code. I confirm that the site has been graded in accordance with the approved grading plan including location of property corners for proper building location, completion of retaining walls, location and slope ratio for all manufactured slopes, construction of earth berms, installation of all drainage devices shown on the approved grading plans, location and elevation of building pads and positive building pad drainage. The placement of the building pad and the pad elevation as shown below are in conformance with the grading plans as approved by the City of Fontana. The building pad is suitable for building construction as related to the preceding items and conforms to the standards of care for grading practices and tolerances.

A field inspection has been performed and the pads have been graded to be in conformance with the plans as follows (additional pages may be added if needed):

Lot No.	Approved Plan Elevation	As-Built Elevation*	Lot No.	Approved Plan Elevation	As-Built Elevation*

*Any deviation of more than plus or minus 0.1 ft must be justified in writing by the Engineer of Record
